EXPERIENCE

INDIABULLS SECURITIES (FORMERLY, DHANI STOCKS LTD) | JAVA DEVELOPER

Feb 2024 – Current | Gurugram, Haryana

- Improved **transaction processing speed by 30%** through seamless integration of 3rd party APIs for MF trading, enhancing performance and customer experience.
- Boosted **application efficiency by 35%** by optimizing algorithms, implementing effective multithreading, and tuning SQL queries.
- Delivered **scalable and modular solutions** by refactoring legacy code, versioning APIs, and maintaining comprehensive technical documentation.
- Ensured high **code quality and maintainability** by enforcing coding standards, conducting unit testing, static code analysis, and peer reviews.
- Resolved critical production defects, achieving **99.9% system availability** and improving application reliability.
- **Tech Stack:** Java 8/17, Spring Boot, Hibernate, RESTful APIs, Microservices, Multithreading, Redis, Elasticsearch, MySQL, Git.

UNIQUAY PAYMENT SERVICE | JAVA BACKEND DEVELOPER

March 2023 – Feb 2024 | Noida, Uttar Pradesh

- Developed and deployed **high-performance BE services**, increasing system throughput by 30% with optimized algorithms and SQL indexing.
- Contributed to the complete lifecycle of **4+ enterprise products**, from requirements gathering and design to deployment in production.
- Improved **application reliability and fault tolerance** by implementing robust error handling and failover mechanisms.
- Collaborated with **UI/UX and QA teams** to deliver scalable, technically aligned solutions on schedule.
- **Tech Stack:** Java, Spring Boot, Spring Security, REST API Development, MySQL, Git, AWS S3.

PROJECTS

INDIABULLS MUTUAL FUND | JAVA, SPRING BOOT, SQL, REDIS

2024

- Integrated third-party APIs (**Fintech Primitive, Value Research**) for investment and redemption operations, improving transaction speed and reliability.
- Implemented distributed caching with **Redis** and optimized **multithreading** for API performance improvement.
- Refactored critical modules, resolved key defects, and achieved **100% unit test coverage** through automated testing frameworks.
- Currently implementing **Cart functionality** to enable basket mutual fund ordering.

BENAKPAY PAYMENT GATEWAY | JAVA, SPRING BOOT, SQL

2023

- Engineered backend architecture for a secure **B2B payment gateway**, enabling seamless client onboarding and high-volume transaction processing.
- Implemented **JWT-based authentication** and API header validation for enhanced security and compliance.
- Improved database I/O performance and reduced response latency with intelligent caching and **query optimization**.

SKILLS

PROGRAMMING

Experienced:

Java • SQL

Familiar:

NodeJS • Docker •
Shell Scripting • AWS • GCP

LIBRARIES/Frameworks

Spring Boot • Spring MVC •
Spring Data JPA • Spring
Security • Hibernate

TOOLS/PLATFORMS

Git • Redis • ELK • Jenkins •
Kafka • Postman • IntelliJ •
MySQL Workbench • JIRA

DATABASES

MySQL • PostgreSQL •
MongoDB • Redis

SOFT SKILLS

Agile/Scrum • Code Reviews •
Analysis & Documentation

EDUCATION

CHAUDHARY CHARAN SINGH UNIVERSITY

BACHELOR OF COMPUTER
APPLICATION

Aug 2018 - Jun 2021 | Meerut, UP

PENTAGON SPACE INST. PVT LTD

JAVA FULLSTACK DEVELOPMENT
Nov 2021 - Jan 2023 | Bengaluru,
Karnataka

ACHIEVEMENT

Independently handled end-to-end project development — from **code design** to **deployment** — while resolving critical **production bugs** and ensuring on-time delivery.
